Narrative:

Acting on a report from Industrial Laboratories, Inc., the official testing laboratory for the Delaware Thoroughbred Racing Commission, that urine sample E464132 had exceeded the level of detection for "Sotalol", a violation of D.T.R.C. Rule 15.1 All, 15.1.3.1.1, 15.3.1, 15.3.2 and 15.18. The Stewards at Delaware Park determined that urine sample E464132 was obtained from "Tappin for Glory", first (1) place finisher of the second (2) race on May 28, 2022. The trainer of record for "Tappin for Glory" was Gary Contessa.

Trainer Contessa was notified of the results of the test on "Tappin for Glory".

Trainer Contessa availed his right to a split sample. Split Sample E464132 was sent to UIC Analytical Forensic Testing Laboratory in Chicago IL. On August 10, 2022, UIC reported that Sotalol was detected in sample E464132. Trainer Contessa requested a hearing in this matter. Trainer Contessa "Waived" his right to Legal Counsel for this hearing. A hearing was held before the Board of Stewards on August 19, 2022. Trainer Contessa did not dispute the positive test result, but rather provide evidence as to the potential cause. Trainer Contessa provided information that he was prescribed Sotalol and has been on this medication for 5 years by his physician. Trainer Contessa mixes his horses feed tubs every day by hand. After receiving all of Trainer Contessa's evidence and testimony, the Board of Stewards do believe the possibility of environmental contamination as mitigating factors in this matter. However, there are aggravating factors in this matter as well: A Registered Trainer shall bear primary responsibility for the proper care, health, training, condition, safety and protection against administration of prohibited drugs or medication of horses in his charge. D.T.R.C. Rule 7.3.1 and 7.3.6.

Sotalol was reported at the level of detection in urine by the Primary Laboratory, Industrial Laboratories in sample E464132. The split sample Laboratory UIC Analytical Forensic Testing Laboratory reported that Sotalol was detected in sample E464132. A violation of D.T.R.C. Rule 15.1 All, 15.1.3.1.1, 15.3.1, 15.3.2 and 15.18.

Based on the evidence available to them, the Stewards have determined the following:
